Emergency Situation Report — Drought

Mudug Region
Date: 5 September 2026

Situation

Drought conditions in Mudug have escalated to a critical level, with significant livestock losses and worsening food insecurity reported across Gaalkacyo, Jariiban and Goldogob districts.

People Affected

An estimated 18,000 people are currently affected in the region, with continued monitoring of newly displaced households.

Response

Borehole rehabilitation and food distribution operations are underway in coordination with humanitarian partners. Additional water trucking has been requested for the most affected districts.

Next Steps

A rapid needs assessment is planned for the coming week to refine the response plan.
